TBT234EU | EcoSpruce™ 14" Topload Laptop Case

Targus EcoSpruce™ is an eco-friendly range delivering the laptop protection, quality and ergonomics Targus is known for. Manufactured using fabric woven from 100% PET polyester fibre that is made from recycled water bottles to help reduce our effect on the environment. A quick-slip padded pocket with security strap reduces movement, scratches and drop damage to your laptop. There is additional storage for your accessories and belongings whilst padded touch points ensure comfortable carrying.

- EcoSpruce™ fabric woven from 100% recycled PET fibre carrying: Green Mark™ certification, Bluesign standard
- REACH compliant and manufactured under an Environmental Management Process (ISO 14001 Certification)
- Integrated padded laptop sleeve with security strap to limit movement, scratches and drop damage
- Spacious compartments for accessories and belongings
- Padded carry handles
- Targus Equaliser padded shoulder strap ensures even and continuous weight distribution across shoulder
- External corner bumpers to protect vulnerable laptop edges from knocks
- Water-resistant base
- Easy grip zip pulls
